

The background of the entire page is a collection of overlapping watercolor-style balloons in various colors: red, pink, teal, orange, and blue. The balloons have soft, blended edges and some darker shading to give them a three-dimensional appearance. The text is centered on the largest, most prominent blue balloon.

hi!dea™ design

A COLLECTION INSPIRED BY YOU

hi!dea™ design is a strong identity brand, born from the fusion of the avant garde trait and the deep knowledge of promotional products.

Fully designed thinking of you, it combines clean materials with innovative lines and attractive design, transforming these products into memorable gifts.

Roots

BEARING IN MIND ACTIVE LIFESTYLES, THIS NEW COMPLEX COLLECTION WAS BORN.

Like a root, the strategically placed bands hold your ideas and objects together, giving this day-to-day object an additional function.

ALL BRANDS HAVE A BEGINNING AND OURS BEGAN WITH DRAWING PENS!

Inspired by the diversity of shapes, the hi!dea™ design writing instrument collection stands out for the boldness of its clips, elegance and meticulous choice of all the elements that make up these objects.

SHAPES

GEOMETRIC FIGURES IN EVERYDAY LIFE.

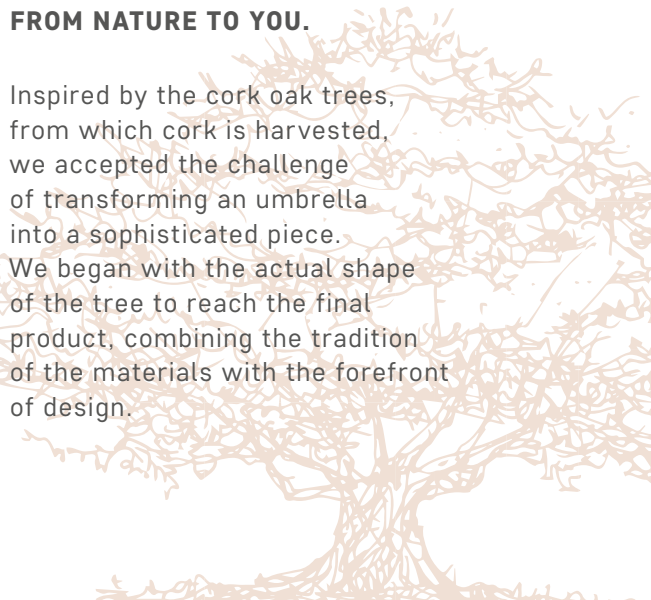

The exercise of combining geometric figures styled this houseware collection. The asymmetries of a solid block of bamboo, combined with modern design, bring nature to your table.

nature

FROM NATURE TO YOU.

Inspired by the cork oak trees, from which cork is harvested, we accepted the challenge of transforming an umbrella into a sophisticated piece. We began with the actual shape of the tree to reach the final product, combining the tradition of the materials with the forefront of design.

METAMORPHOSE

HARMONY IN TONES OF GREY.

The two pockets, with invisible zippers, establish two parallel lines as the moto of this collection, guided by rectilinear forms. With distinct and minimalist design, the material plays an important role.

PERSONAL AND FEMININE.

Our days are made of small private moments. Inspired by the geometric shapes of the trapezoid, we have created an indispensable pouch to accompany your travels.

ENJOY THE OLDEST EUROPEAN TEA.

OFFERING GORREANA IS OFFERING HISTORY WITH AROMA.

Founded in 1883 and located in Azores, the Gorreana tea factory is the oldest in Europe. The same family has been managing the planting area of 45 hectares for about 5 generations.

Gorreana teas represent a union of taste, health and ecology.

The unique tea plantations of Azores represent the ideal environmental conditions for the organically grown tea.

Gorreana teas have worldwide recognition and are ranked as some of the best and purest teas in the world.

BLACK TEA

The black tea Pekoe has a very strong and aromatic flavor. It is produced from the plant's second bearing bud. Due to the strong oxidation of *Camelia Sinensis* leaves, this tea displays a reddish and dark color and it also contains antioxidants, neuro-stimulants and caffeine.

GREEN TEA

The spraying process of *Camellia Sinensis* leaves enhances its light and delicate aroma. Being rich in folic acid, vitamin C, K, B1 and B2, this tea has great anti-oxidant and slimming effects, it is also effective in cancer treatments and in anti-aging.

QUALITY PRINTING SERVICES

HOT STAMPING

- Hot stamping consists of reproducing designs by means of a hot press on leather or imitation leather products. Furthermore, this technique allows transferring a metallic or pigment finish, adding colour to the branding.
- Used on: keyrings, diaries, notebooks, wallets.

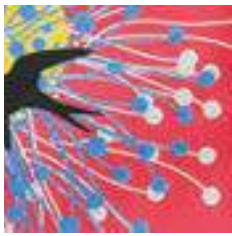

SCREEN PRINTING

- Screen printing is a printing technique which provides trustworthy and long-lasting results. This method can be used on smooth surfaces, printing in high definition even with more than one colour.
- Used on: notepads, rulers, pill boxes.

TEXTILE PRINTING

- A method similar to silkscreen printing, however optimized to be used on textiles.
- Used on: aprons, polar fleece items, non-woven bags.

TRANSFER

- This method enables results on various types of fabrics and is very economic for multicolour printing on small quantities.
- Used on: aprons, bags, backpacks, non-woven bags, cork, footballs.

LASER

- Laser engraving is a precise and long-lasting method. The laser beams engrave the design on hard surfaces. Besides metal, it can also be used on wood, leather/PU and glass with exquisite and elegant results.
- Used on: metal pens and keyrings, wooden containers, card holders, cork products.

DOMING

- Doming consists of applying a clear resin (epoxy) on a printed slip. This layer of resin produces the effect of depth and protection and results in a 3D effect. The end result is shiny, resistant and durable.
- Used on: usb flash drives, keyrings, pens.

360° ROTARY SCREEN PRINTING

- Rotary screen printing is similar to the process of screen printing, but optimized for 360° printing. This process is indicated for pens.
- Used on: pens.

SUBLIMATION

- Sublimation offers the advantage of being able to be used on concave surfaces, producing well-defined designs. It also results in a design highly resistant to extreme temperatures.
- Used on: mugs.

PAD PRINTING

- Process used mainly for printing small objects like pens. It is very versatile and adapts to curvy shapes. It is the most economical solution for various products.
- Used on: plastic pens, usb flash drives, keyrings.

EMBROIDERY

- The well-known embroidery technique allows customisation on good quality fabrics with great quality and perfection. Embroidery replicates designs with a large variety of colours and distinct lines.
- Used on: towels, blankets, caps, conference bags.

DIGITAL UV

- UV printing offers great advantages like speed and high quality guarantee. This technique is very appealing for printing in several colours. Ideal for small quantities and can be applied on plain or slightly curved surfaces.
- Used on: pens, keyrings, rulers, notebooks.
